STATE AGENCY AND DEPARTMENT REPORTS

California Department of Public Health Zika Virus Disease Update

The Medical and Health Coordination Center (MHCC) continues to be activated in response to the Zika Virus Disease (Zika) in order to aggregate and update information from a variety of sources and coordinate response activities across the California Department of Public Health (CDPH).

- CDPH centers and programs will assist in providing information related to their specific activities on a weekly basis. This information will be collected and included in a weekly Public Health and Medical Emergency Function (EF) 8 Situation Report released by the MHCC. The MHCC will manage requests for information from the public, healthcare facilities, and local health districts and ensure responses are timely and accurate during a time of evolving information.
- Zika is transmitted to people primarily through the bite of an infected *Aedes Aegyptus* mosquito (also known as yellow fever mosquitoes) and *Aedes Albopictus* mosquito (also known as Asian tiger mosquitoes), which are not native to California. Today, more than 60 countries have documented Zika virus transmission, with over 40 reporting their first outbreak within recent months. The most common symptoms of Zika are fever, rash, joint pain, and conjunctivitis (red eyes). The illness is usually mild with symptoms lasting for several days to a week after being bitten by an infected mosquito. People usually don't get sick enough to go to the hospital, and very rarely die of Zika. For this reason, many people might not realize they have been infected. However, Zika virus infection during pregnancy can cause a serious birth defect called microcephaly, as well as other severe fetal brain defects.
- The Centers for Disease Control and Prevention, (CDC), CDPH, Emergency Medical Services Authority (EMSA), California Governor's Office of Emergency Services (Cal OES), State level EF 08 partners, continue to prepare for the management of Zika cases in California. Reporting of select notifiable diseases is mandated by state law in California through *Title 17 California Code of Regulations* and Zika is now a notifiable disease that must be reported.
- CDPH continues to work with the healthcare community and local health jurisdictions to identify potential suspect cases and avoid spread of the disease. New guidelines and updated guidelines released by CDC are posted on the CDPH website available at: (<http://www.cdph.ca.gov/HealthInfo/discond/Pages/Zika.aspx>). CDPH and local health jurisdictions are monitoring the situation closely and are taking steps to keep the public safe.
- EMSA and the EMSA Duty Officer Program continue to monitor the situation and remain in communication with the Regional Disaster Medical Health Specialists (RDMHS) and Medical Health Operational Area Coordinator (MHOAC) Programs.
- Please see attached for full report

FIRE ACTIVITY

Cal OES Fire Preparedness Levels

National	Northern California	Southern California
Preparedness Level 2	Preparedness Level 1	Preparedness Level 2
	Multi-Agency Coordination System MACS Mode: 2	Multi-Agency Coordination System MACS Mode: 2

Pony, Vegetation Fire, Siskiyou County

Location: Klamath National Forest, Happy Camp

Jurisdiction: Federal DPA, FRA

Start Date / Time of Event: 06/07/16 at 1109 hours

Per Cal OES Fire Duty Officer and CAL FIRE as of 06/09/16 at 0727 hours:

- 1000 Acres, 0% Contained
- Fire behavior remains active in brush and timber with uphill runs.
- Burning in fire scars from 2001, 2008 and 2009.
- Type 2 IMT Young.

Coleman, Vegetation Fire, Monterey County

Location: Fort Hunter Liggett, Monterey County

Jurisdiction: FRA/SRA, Unified Command Cal Fire and USFS

Start Date / Time of Event: 06/04/2016 at 1451 hours

Per Cal OES Fire Duty Officer and CAL FIRE FIRE as of 06/09/16 at 0727 hours:

- 2,520 Acres, 65% Contained
- Type 1 IMT McGowan
- Demobilization due to reduced fire threat and progress of direct line construction.
- Expected containment 06/18/2016

Cal OES Resources

Resource status validated as of 06/09/16:

- 2 OES Fire and Rescue Assistant Chiefs have been released today, 06/09/16.
- 1 OES OASIS Satellite Communications Unit will demobilize on 06/10/16.
- 2 Public Safety Communication Technicians

FIRE ACTIVITY

Old Incident, Vegetation Fire, Los Angeles County (Final)

Location: Mullholland Drive and Old Topanga Highway, Calabasas Area

Jurisdiction: LRA/SRA

Start Date / Time of Event: 06/04/16 at 1609 hours

Per CALFIRE and Cal OES Fire Duty Officer, Southern Duty Officer, Law Duty as of 06/08/16 at 1745 hours:

- 465 Acres, 95% Contained
- A large resource demobilization is underway.

Weather of Concern

- There is no current weather of concern.

Active Weather Warnings, Watches and Advisories by County:

http://www.wrh.noaa.gov/sto/brief/wwa_bc_cal.php

WEATHER SYNOPSIS BY REGION

NORTHERN CALIFORNIA

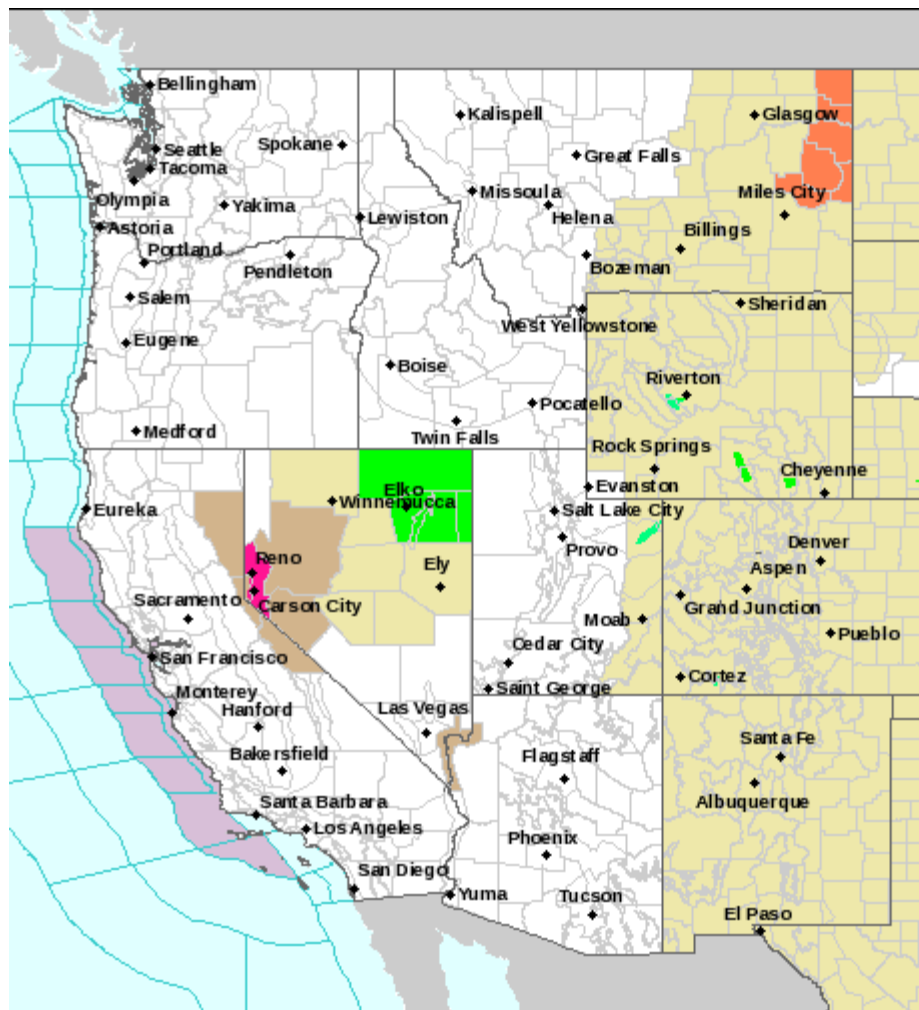

A low pressure trough just off the West Coast continues to rule our weather pattern and will be lingering over the region through Saturday. Some light showers are expected in the far northern areas near the Oregon border today and Friday, but wetting rain (0.10 inch) will be hard to come by even for areas that have several precipitation events. There is a small chance of isolated afternoon/evening mountain thunderstorms in the north Friday. Relative Humidity (RH) will be higher overnight in all areas than recently. Higher pressure will start to move into the region later Saturday, and warmer, drier conditions will be in place Sunday. At the same time, a weak low will be moving across Southern California, and enough moisture will wrap around it to bring a slight chance of some showers or isolated thunderstorms to the Tahoe area Saturday and Sunday. Another low pressure trough will drop south from the Gulf of Alaska early next week for a close repeat of the weather expected into this weekend, although it will probably be warmer. The warmest inland areas will be in the 80s for much of the 7 day period, but likely reaching into the low and mid 90s Sunday and Monday. Gusty south to northwest afternoon winds will be in place today and Friday, then winds will become more northerly Friday night into Sunday. The strongest afternoon winds will be westerly in our eastern areas in particular and that will help foster low afternoon RH (10-15%) there. Wind gusts of 30-35 mph will be widespread with some areas gusting to around 45 mph. Winds will be strongest Friday afternoon. Gusty afternoon winds will return early next week as well.

SOUTHERN CALIFORNIA

An unseasonably deep trough over the Pacific Northwest will bring cooler and more humid weather to the region today through the weekend. A few spots near the I-5 Corridor will continue to see some north winds to 15 mph for a couple hours early this morning. The north winds forecast for Santa Barbara County have failed to materialize and expect just a few areas near San Marco Pass to see light north winds through noon. Onshore flow along with some high clouds will collude to slice off 5-8 degrees from yesterday's temperature readings. Expect high temperatures today to be in the 60's to lower 70's near the coast, mid to upper 80's in the valleys to 95 in the desert. The San Joaquin Valley and surrounding foothills will reach the lower to mid 90's. South winds of 20-30 mph will be possible in the Owens Valley and the Inyo National Forest today. Expect lighter winds in these areas the rest of the outlook period. A steady dose of onshore flow Friday through the weekend should allow temperatures to continue to drop 3-5 degrees each day. By Sunday, temperatures will be a few degrees below normal. Widespread night through morning marine layer coverage should occur, particularly over Southern California. Some patchy drizzle may occur near the higher terrain and the marine layer may become deep enough to extend well into the Cajon Pass. West winds of 15-25 mph with gusts to 35 mph can be expected each afternoon through the weekend in the Kern County Mountains, Antelope Valley, Banning Pass and the eastern side of the Cleveland National Forest. A bit of instability may lead to some cumulus buildups along the Sierra Crest and higher peaks of Death Valley N.P. Saturday and Sunday. Temperatures should climb a few degrees early next week as high pressure builds over the Four Corners region. No significant precipitation is expected during the next 7-10 days.

CAL OES MISSIONS

New Cal OES Missions

- **2016-LAW-24182:** 6/8/16, 1511 hrs., Tulare S.O. requested SAR support for a water rescue on the Upper Kern River near Gold Ledge Campground, near the Kern/Tulare County Line, for a male subject stranded on a makeshift island in the center of the river. Due to an extended response time, Tulare is requesting Kern County SAR. **Update:** 1653 hrs., Kern SO used their helicopter with hoist to successfully complete the rescue. **Mission New/Closed.**

CAL OES MISSIONS

Ongoing Cal OES Missions

- **2016-Cal OES-21764** (EF-8): Waterman Incident. Environmental Health Specialist to serve as a Food Inspector. This mission is expected to be open until June. Mission Duration: Through 06/30/16. **Mission Ongoing.**
- **2016-IREOC-21748**: Tasking Cal Trans to extend state highway right of way to facilitate hazard tree removal. This is a long term mission and is expected to remain in place through the summer months.
- **2016-Cal OES-20822** (EF-8): Waterman Incident. Four Crisis Clinical Psychologists/Counselors to provide in-home and workplace trauma counseling, coping, and referrals with expertise in mass shootings/terrorism. Mission Duration: Through 06/30/16. **Mission Ongoing.**
- **2016-Cal OES-20816** (EF-8): Waterman Incident. One Mental Health Services Coordinator to assess short and long term needs, plan and implement intervention counseling strategies focusing on Post Traumatic Stress Disorder with staff, families, and others impacted. Mission Duration: Through 06/30/16. **Mission Ongoing.**
- **2016-Cal OES-20652** (EF-10): Waterman Incident. Registered Environmental Health Specialist for Solid waste position from CDPH. Mission Duration: Through 06/30/16. **Mission Ongoing.**
- **2015-Cal OES-20498** (EF-8): Waterman Incident. Vector control specialist, and an Environmental Scientist for medical waste management. Mission Duration: Through 06/30/16. **Mission Ongoing.**
- **2015-Cal OES-20441**: Waterman Incident. Chief of Environmental Health Services replacement position at the San Bernardino County Department of Public Health in San Bernardino. Mission Duration: Through 06/30/16. **Mission Ongoing.**
- **2015-IREOC-19846**: One RAWS weather station to Amador OA – On scene 11/30/15, expected to be left in place until late spring. **Mission Ongoing.**

CAL OES MISSIONS

Closed Cal OES Missions

- **2016-LAW-24172 6/7/16, 1904 hrs.**, The IERCC reported an InReach SOS device activation at Coordinates 37.42024 -118.91077 which plots near the Pacific Crest Trail to the base of Mt. Izaak Walton, near Lake Thomas A. Edison, Fresno County. Using the two-2 way communication capability, the IERCC confirmed the R/O came in contact with a couple who had lost all their belongings (i.e. tent, sleeping bag, etc.) in the river while trying to cross. IERCC verified the R/O is going to stay with the couple until help arrives. All initial information and updates relayed to Fresno SO. Update: 6/7/16, 2125 hrs., Fresno SO advised they have been in communication with the R/O via IERCC and will hike into the area on Wednesday morning and escort the couple out. The R/O is going to allow them to stay in his tent overnight. **Update: 6/8/16, 1219 hrs.** Fresno SO advised the couple in question had no issues overnight and were in the process of being walked out. The R/O deactivated his device. IERCC notified. **Mission Closed.**
- **2016-LAW-24130, 6/6/16, 1836 hrs.**, Butte County Sheriff's Office (BCSO) requested a side scan sonar tow fish to search Lake Oroville for a missing male in his 30's whose kayak was found floating Sunday afternoon. BCSO wasn't called until Monday at 1530 hrs. The search will focus on the area of the lake where the kayak was found which is in close proximity to the parking lot where the MP's truck is parked. The depth of the lake in that area is up to 250'. **Update: 2111 hrs.**, BCSO made a second request for 12 Type II ground searchers to focus on the shore line and surrounding areas, and 3 HRD water certified K-9's and 2 area K-9's, including support personnel. All mutual aid resources will report Tuesday, 6/7/16 at 0800 hrs. for a briefing. The request for the side scan sonar tow fish was filled by Merced County S.O. The ground searchers are being provided by Yuba SO and Glenn County SO. The K-9 request was filled by the Cal OES Law Branch K-9 Coordinator. Update: on 6/7/16 @ 1354 hrs., BCSO advised the MP has not been located. The Merced Side Scan Sonar Team will finish up this afternoon and demobilize. BCSO has made an additional request to include (4) C3 HRD Dogs and (2) Area Dogs with handlers and support, along with 2 Boats to transport the K-9's. The resources are requested for Wednesday, 06/08/16 at 0800 hours. Sutter County SO and Glenn County SO are each providing a boat. The Cal OES Law Branch K-9 Coordinator secured 2 area and 2 water K-9's, with 2 flankers, and is working on a 3rd water dog. BCSO advised. **Update: 6/8/16, 1626 hrs.** Butte SO advised no clues were located today. All mutual aid resources will be released and search efforts will continue using local personnel only. **Mission Closed.**

CAL OES MISSIONS

Closed Cal OES Missions

- **2016-LAW-23009:** 1600 Hours, 5/31/2016, Placer County Sheriff's Office (PCSO) is requesting resources to locate the victim of a boating accident on Camp Far West Lake. PCSO is requesting side scan sonar and divers to assist with the search. Amador, Sacramento and El Dorado County Sheriff's Departments are responding with requested resources. Update: 6/4/16, Per PCSO, El Dorado SO will return today (Saturday) with the PCSO Tahoe team to locate and recover the victim of the boating accident. LDO is working with PCSO on other diving resources in the event they are UTL today. **Update:** 6/6/16, PCSO requested a side scan sonar tow fish and an ROV with Blue View for a two day operational period beginning Wednesday, 6/8/16. LDO working to fill that request. Update: 6/7/16, The Santa Clara County Sheriff's Office accepted the mission to supply a side scan sonar tow fish for both Wednesday and Thursday (if necessary). They will be on scene at Camp Far West at 0800 hrs. on 6/8/16. We were unable to secure an ROV with sonar so Placer dropped that request for the time being. **Update: 6/8/16, 1636 hrs.,** [Santa Clara SO Dive Team Supervisor advised the V had been located using side scan sonar and the Placer SO Dive Team was readying to do the recovery.](#) 1752 hrs., [Advised the recovery of the V was complete.](#) **Mission Closed.**
- **2016-Inland-22855:** Carrington Communication Exercise in Mariposa County. One Cal OES Mobile Interoperability Gateway Unit (MIGU) for the Carrington Communication Exercise on 06/08/16 in Mariposa County. MIGU-5 & MAR-5 ACS Personnel assigned. [Personnel demobilized on 06/08/16.](#) **Mission Closed.**

Cal OES 2016 DROUGHT
